Dear Leonard:

I telephoned the Chase Hotel and after much searching they found the item I left for you and they promised to mail it.

As you requested, I am enclosing my duplicate Maryland notes, as follows:

\$10	Susq. Bank	#244
\$ 5	"	# 19
\$5	Ches. & Ohio	#675
\$5	"	#1230
\$5	Susq. Bridge	#3113
\$5	Thomas Davis	#801
\$5	Clinton	#2020

My duplicate Maryland tokens are:

Adams #10, #35, #39, #42, #61, #150.

My wife and I enjoyed your visit very much and hope our paths may cross often. No doubt you will see Dr. Levy and give him my daughter Linda's best regards.

Whatever suggestions you have with respect to my duplicates will be welcomed if I can add to my collection.

I particularly wish to call your attention to the fact that on many of the Maryland notes of 1767-1774 the name or initials of Thomas Sparrow appears as designer and, likewise, the name of I. Green or his initials appears in the designs on the front as well as in the leaf designs on the back.

Sincerely yours,

ERIC P. NEWMAN

Dear Eric,

First must mention again how thoroughly I enjoyed the evening at your home last month. Having the opportunity to meet you & your wife helped make my St. Louis trip very worthwhile. Moreover, my increased enthusiasm for my collection is for me the measure of having encountered a "true numismatist."

I am ordinarily much more prompt in replying to numismatic correspondence, but I have been quite busy since my return, and out-of-town guests pre-empted what might have been some leisure opportunities. The photocopies of the Bank note reporter arrived O.K. and are extremely useful. Thanks for this additional courtesy.

Appreciate, too, your sending some of your Md. duplicates. None are lacking in my collection; however, 3 are a grade or 2 better than mine, and I would be interested in acquiring these (\$5 - 10 Surg. Bank; \$5 Clinton). Only thing I can think of you may be able to use, as I recall, is the enclosed \$2 Bank of Balto. Yours, I believe, is a counterfeit copy. If this one is genuine, you may have it, plus the old 1830's Surg. Bridge - Bank check blank (found an old book of these with newspaper clippings of Pres. Harrison's death pasted in - as scrapbook) for the 3 notes designated (plus, if you can use them, my three replaced notes)

2

What else do you actively collect that I might offer you for Maryland notes? Missouri tokens? St. Louis exposition items? Obsolete uncut sheets?

Am looking forward to hearing from you, and promise more prompt replies in the future!

Best wishes,
Leonard R.

Leonard M. Rothstein, M. D.

P.S. Will convey your regards to Dr J. Conn, whom I'll be seeing shortly, no doubt.

P.P.S. The enclosed Magnus print was an adjunct to my U.S. Currency collection. If its something you appreciate, I would be pleased for you to have it as a memento of what was, for me, a most enjoyable visit.

Leonard.

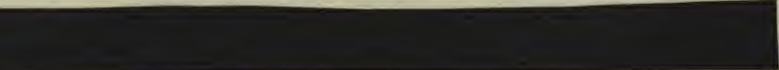

Almost forgot: of the tokens you list, can use A10-Barnes.

Dear Leonard:

Thank you for your nice letter and I am sure our
correspondence will not be very fast.

George Fuld has written me that he saw you and I
am glad that he is back to par.

If you want to keep the three nice Maryland notes,
then send me something even if it is a duplicate
for me. Missouri tokens are okay, obsolete uncut
sheets are okay.

Thank you for the unique song about greenbacks.

I am enclosing the Barnes token which you wished
and am returning the counterfeit Bank of Baltimore
and the Susquehanna check along with the three un-
circulated Maryland notes which you want to keep.
You will have no trouble finding something for me.

Sincerely yours,

EPN/atb

Dear Eric

Trust you are having a pleasant summer.

This reply is somewhat overdue, despite my good intentions. I haven't yet solved the problem of time - vocational & avocational!

In exchange for the 3 Md. notes, I am enclosing 4 duplicates (which you may be able to use for trading purposes); and for the Barnes token, I am enclosing a nice scarce St. Louis 1884 calendar token.

Can you use Missouri - Adams 21a (Fitzgibbon Daguerrestype Gallery Nicholson Grocery) silver plated, unc. ? I also have many nice obsolete currency items (outside of Maryland), and I offer these "2 for 1" for any Maryland obs. curr. I can use. Includes some scarce and unusual items. Would you be interested in seeing a selection of what I have to offer? There are at least 25-30 of your Md. I could use. I would be especially interested in the Snow Hill apothecary (medical interest), the Reisterstown Turnpike (near where I live) and the several notes showing the Balto. Battle monument (getting up a topical exhibit on this for 1963 MANA).

Let me hear from you. Regards to your wife, and

Best wishes,

Leonard

Dear Leonard:

Thank you for your letter of July 13, 1963.
I have been on vacation and just returned.

I do not collect calendar tokens and the thought occurred to me that you might send me the Missouri Adams 21-A instead. I already have it but could readily use it for trading material. The calendar card is returned herewith.

The Maryland notes which you sent me for those which I turned over to you are already in my collection, as you know, but I would much prefer it if I could add a couple of pieces to my general obsolete currency collection. You state that you have a number of scarce and unusual items from other states and I think it would be well if you could send me a large group of obsolete currency items to see if there are any I do not have.

I am really excited about what might be a wonderful Maryland find. I have a 1732 French Colonial coin counterstamped "I.C." and it may well be our friend, John Chalmers. Have you ever seen a coin so counterstamped? I am going to check up on the exact counterstamp as I believe there is a book on the subject of Maryland silver makers.

My kindest personal regards.

Sincerely,

Dear Eric :

Finally have a breather, and taking a moment to scrawl you a long overdue reply.

In addition to usual time demands, I was busy getting material assembled and research done on an exhibit for MANA. (Topical—currency, tokens, & medals depicting Balts. Battle Monument, together with old engravings of same, etc.) Got a 2nd award for my efforts, but enjoyed very much doing it.

Sorry you couldn't use the notes sent in swap for yours retained to upgrade a little the ones in my collection. The Nicholson piece I no longer have, but am enclosing instead a couple St. L. items you may find of interest.

Saw your article in Coin World and thought you made your points very effectively.

How's the Md. colonial currency project coming?

George Fuld, as you may know, has taken a position with Goodyear Rubber in Akron.

Regards to your wife.

Very sincerely,
Leonard

Dear Eric :

Just a hurried note to let you know I've had a closer look at the History of Md. Printing volume. It's in perfect condition (limited ed. 500), & has a chapter "Jonas Green - printer to the Province - Green & Lind - Thos. Sparrow, the 1st Md. engraver, - Anne Catherine Green & her Sons." Also has 100 page list "Md. Imprints of the Colonial period 1689-1776."

Am reasonably certain I can get it on a trade, and offer it to you for any 5 Md. Astute notes I can use for my collection.

Would appreciate prompt reply either way - we can work out details. Best wishes.

Dear Leonard:

Thank you for your suggestion with respect to the History of Maryland Printing but this really does not belong in my library, which is a numismatic one.

I am still trying to get you to send me some of your bank notes from other places than Maryland as the four Maryland pieces you sent me, in July, are still sitting in my office. How about letting me know?

The token swap is good enough as long as it benefits you as I do not particularly care what duplicates I have.

I am glad you won a prize at the MANA Convention as it indicates you must have worked pretty hard in developing it.

I have finally finished the long article I was working on when you first came to visit me in the Spring and the article will be published in the Numismatist beginning this February.

I certainly want to get to Baltimore to do some work at Johns Hopkins but the occasion has not yet arisen.

My very kindest personal regards,

Sincerely,

Dear Leonard:

Would you do me a little research favor?

In reading a monograph entitled "Money and Transportation in Maryland, 1720-1765", written by Clarence P. Gould, in 1915, and published as part of the Johns Hopkins University's "Studies in Historical and Political Science", I find, on page 26, a reference to the Maryland Gazette of February 28, 1754, which states that, in New York, bills are being paid by wheelbarrows full of halfpence.

Would you be nice enough to obtain from the Historical Society, or the Library, or whoever has this issue of the Maryland Gazette, the exact and full text of the article. I would be very grateful.

In the article currently running in The Numismatist, on Nature Printing, you will find a small section devoted to Maryland. I believe we talked about this when you were here.

Kindest personal regards.

Dear Eric :

Herewith the uncut sheet of Leonardtown Md. notes due you as part of our trade.

Needless to say I enjoyed the opportunity to look over your Md. holdings, & to add perhaps 50 items to my SPMC listing.

I look forward to receiving the xerox copies of the Md. & medical notes, and whichever additional 2 Md. notes you decide to send. (Sorry after my error and any confusion it may have caused).

Stelazine[®] brand of trifluoperazine

(Re the Marine Bank \$5 note we scrutinized: The puzzlement was caused by the fact that both yours + mine were apparently counterfeits. I have, in my collection, a proof on which the cross-hatchings in the "lazy" 5 in upper left corner are perfectly spaced, without the gaps.)

Having seen some Md. notes I need, I may become motivated to dip out some "foodies" from my holdings (e.g. an early 1840's "Certificate of Delivery" of the engraved plate to the ordering bank, signed by Freeman Rawdon - of R.W. & H.; die proofs of vignettes; engraver's sample sheet; etc.)

May also find some Mo. items for you. What else are you interested in?

Please be sure to let us know whenever your travels bring you near or to Bath. (perhaps ANA in August?)

Best wishes

Dear Eric:

The package of Xerox copies & 2 notes arrived today (after a slight delay occasioned by your use of my old address — please see correct address on label above.) Many thanks for taking the trouble to prepare & send them. Fifty additional items helps immeasurably with my listing, & acknowledgement will be made in my book.

Thanks also for the 2 additional notes, completing our swap. Among the notes you xeroxed for me were 10 or so that I requested because of possible minor plate variations from notes I have. From memory I thought the #1 City Bank of Balto. was one such, but it turns out it is exactly the same as mine. I am therefore returning it herewith, and hope you will be good enough to send another item in its stead. (Following the policy of selecting notes that are of banks still represented in your collection by other examples, may I suggest any one of the following:

- #50. Elkton Bank of Md.
- or #5 Bank of Balto. 1799 (? cft.)
- or #5 Susquehanna Bridge & Bank, 1816
- or 12½¢ Western Mechanics Savings Instn. 1839
- or #5 Commercial Bank, Columbia, S.C. (alted)

(Any one
of these
of your
choice will
be O.K.
with me.)

Sorry you weren't entirely pleased with the Leonardtown sheet. I thought I left you a Xerox copy that showed that it was unsigned. I have never seen an issued example, or indeed any other notes at all from Leonardtown. My own sheet is exactly like yours, and the 2 are the only sheets in existence to the best of my knowledge.

As I mentioned in my previous letter, I will be digging out some other items to send you for possible swaps. Are you interested in? :

Dear Leonard:

I am enclosing a \$5 Commercial Bank of Millington altered to South Carolina. You asked for this in your letter.

I am returning the balance of the items you sent as I have most of them but the one or two I do not have don't ~~xx~~ raise my blood pressure enough.

Among the many things you are trying to intrigue me with I am interested in:

Bank Note Sample Engraving sheets (I have a nice group already but there are endless varieties) Please describe them before you send them.
Civil War Patriotic Envelopes of Missouri but I have most of them. My desires in those envelopes include the one with the Continental paper money printed on the left side, but this is not from Missouri as you know.

United States die proofs from large size nationals etc would be of interest if I do not have them.

My secretary is not in today so please excuse my brevity and poor typing.

My best to your wife.

Sincerely,

Photocopies enclosed

4/21/71

Dear Eric:

Thanks for the additional photocopies, and the note, completing our swap of last month. Although my obvious preference is for Md. notes, this one was welcome because I've been involved in correspondence with Austin Sheheen about it. He was convinced it was a genuine S.C. issue, & so listed it in his book. The one you sent shows clear, unmistakable evidence of alteration from a Millington, Md. note, so clear in fact, that it even shows up on the photocopy I've sent him. The #10. of the series in his list is probably also altered.)

I will be getting off to you shortly a list or selection of items to offer for possible additional trades. I have, among other items, a group of unusual civil war covers of numismatic significance that includes a nice specimen of the one with the colonial note illustrated (86, Nov '62) that you are seeking.

Re the Md. notes you ret'd, even though none
'turns you on,' would you designate which are
missing in your collection? :

- \$2 Balto Bank notes - B&O stock orders 1841
- ~~Not interested~~ \$5 Commercial - Millington / Tagwell Insurance, Pekin, Ill. 1840
- ✓ \$20 Farmers Merchants Balto. ins.
- ✓ \$50 " " " "
- ✓ 25¢ Mechanics Savings Fnd. Balto. 1840
- Need \$2 Balto Real Estate Sav. Inst. 1840
- ~~Not interested~~ \$1 Tidewater Canal 1840 chtp. ST. LOUIS.

The reason is that some of the trades I will
propose involve throwing in Md. notes to keep your
collection representative. These are not mine, borrowed
from another collector, & I want to return those you
definitely have. Could you let me know promptly
about these? (Just ck. off on list above & return it)

If you're coming to ANA, would love to have
you & Evelyn here.

Leonard

Just a hurried note, since I am off for 2 wks. in Israel tomorrow.

Glad you found something you could use in what I sent you, & appreciate your sending the items along with Karen.

Unfortunately, have no use at all for the 3 Deer Creek notes, which I already have in duplicate.

Would prefer to have the uncut sheet I originally requested, in which case I would throw in something additional (e.g. a couple of NB note engr. die proofs — or a delivery document for obsolete note plates, signed by Rawdon). Or, alternately, will accept any 2 other Md. notes (mutilated ones O.K. since am trying to build a reference collection,) (or ones you have otherwise represented in your

Dear Eric.

Just ran across the photograph
of the reverse of the adv. on the
fractional colonial note I had
previously sent you a copy of; & am
enclosing it herewith.

Had a chance to dip out a couple
of Md notes for me, to square us up?
(or the sheet, in which case I'll send
you something additional).

Just acquired 8 additional Md. prop
notes ^{& a sheet of "Kiddie Purchase" - Port Deposit, Md.} - most with matching engr. vignettes
die proofs - from Besant collection.
(If you're interested in the Missouri items,
can put you in touch with who has them)

Dear Len:

I cannot let your daughter go back empty handed because I think you will deem me in need of psychiatric care. I have actually been overwhelmed with business work. Price control, S & S matters, acquisition of new businesses, tax matters — to which you may ask "What for?" To add to that my wife decided to redecorate the entire house and all my correspondence was thrown into a gigantic mound. I am so far behind I am embarrassed — numerically. I have not even written an article in over a year.

So one excuse is as good as another — they are all bad.

I do appreciate your sending the ^{sheet and} envelopes for me and being impatient thereafter. I have patents and patience, but much more of the former.

I do not have any medical items to send so I have to part with Maryland gems — much to your pleasure and much to my momentary lack of principles.

There are enclosed Bank of Westminster \$5⁰⁰ (note the words Pipe Creek on the Wagon) and Marine Bank \$100⁰⁰.

I am glad you bought the ^{Maryland} matching die proofs and notes from the Geo Wait collection. These were from the fine gentlemen from the NY Bell Tel labs — Julian Blanchard.

I would like to know who has the 140 items. You can get them quoted to you and send me the letter. If I ask the price will probably be silly. Let me know if you write but send the name anyhow. Wait has never even let me have a chance at anything which he obtained from Julian Blanchard's estate. I had lost 2 from Blanchard before.

The only nice item I acquired lately is a Crosby in original parts with an 1873 title page.

My very best to all of you

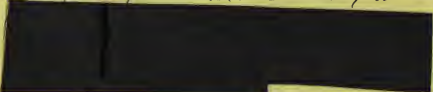

Sincerely,

Eric

4/2/72

Dear Eric,

Re 2 Md. notes came safely
via Karen-pigeon & our deal is
satisfactorily concluded. I thank you.

I just talked with the man who's
distributing Geo. Wait's material, & unfortunately,
the Missouri obsolete & profs are already gone.
Sorry! (unless it was you who got them)

I do have a few other things to offer:

- 1) A scarce hard rubber token of Friedenwald
& Co. Clothiers of St Louis - nice A4. condition.
Field No. 161. Rubbing enclosed

- * 2) A group of probably unique essay pieces
for obsolete currency for New London Bank, Conn.
State Bank at Eliz, N.J.
& City of New Albany, Ind.

Although I plan to offer these to collectors of the currency of the respective states, I thought I'd give you first crack at them. (Picked up 2 of Md. in the group.) Xerox copies enclosed - the light pencilled legends don't show well.

Will trade the St. Louis token for one Md. obs. note.

Will trade each essay piece for a Md. proof note, or for 2 Md. absolute notes.

I must ask the favor of you of a prompt reply letting me know whether you're interested or not, since I can use these items to acquire some other material I know of. Enclosing a self-addressed airmail envelope just as a reminder & encourager of promptness.

Know what it must be like for you renovating. We've been here 5 yrs now & I still haven't straitened my mnemonic stuff out.

Regards to Evelyn, & from Marcia

Sincerely, Leonard R

* Also have a 4th one - S/N. Bank of Potomac - Alexandria, DC, which I'm saving to trade Ellis Island, but you may have it for Md. notes.

P.S. - If you trade for all 4 items, I will throw in 2 Md. absolute items so your Md. collection doesn't get too low.

Dear Eric:

Based on your reply, I'm afraid I conveyed the wrong impression in my letter offering the St. Louis rubber shoe card & the essay & obit notes. I didn't mean that I expected any trade we made to be accomplished pronto; I only wanted a prompt reply as to which items, if any, you might be interested in so that I wouldn't be holding aside items you weren't going to be interested in.

Then I would be perfectly willing to wait to work out something with the items you were interested in, both for personal reasons, as well as because I've seen & know what items you might offer.

In any case, I've thought of doing it this way, (capitalizing on the fact that Karen is coming to Balto again on the 20th):

I am enclosing herewith the 3 essay obs. notes & the St. Louis shoe card for your

✓
inspection & approval. Hold onto any
of the 4 items that interest you, & mail
(or send back with Karen) any that don't.
If you have a chance to get out the
Md. notes for anything you keep, you
could send that with her, otherwise, her
next trip will be at the end of May.

Incidentally, to simplify selection,
if you like all 4 of the items enclosed,
I'll take just one item, the sheet of
5/5/10/10 - Farmers & Merchants - Balto. for all 4.
(You have also the 20/20/50/100 on the same bank)

Let me know your wishes
Regards to Evelyn.

Dear Eric:

Thanks for your reply & the offer of The S.A. Fever Ague Remedy note.

As you will see on enclosed photograph, I already have 2 varieties of this note. Yours is different only in the publisher's imprint. Since Muscatell & I will be collaborating on a new edition of his listing of adv. notes pertaining to medicine, this variety is of interest to learn of, but it's not enough inducement in itself. (Moreover, as I think I told you before, the Martin's clothing note is the only R.W. & H. engraved adv. note I have ever seen in the thousands I've gone thru.)

If you will go along with the swap of 2 Md. Absolute notes I requested in previous letter, I will swap for the Martin's, St. Louis note. Otherwise will pass on your demand note, (but request permission to keep photograph.)

Sincerely,

will enhance your collection.

I am hopeful that we may be able to conclude our swap for the St. Louis RW+H adv note before you leave (for Jamaica is it?)

To facilitate this, I am presuming to offer some swap suggestions for Md. notes. I have gone thru the photocopies you were kind enough to send, checked against the list of your Md. holdings, and picked notes that you have in your coll represented in other denominations in each case.

I would trade :-

1. My adv. note for Any Md. note ^{from} (A)
- or 2. " " " " " 2 Md. notes " _{plus 2 Md. notes you don't have}
-
- or 3. My adv. note " Any Md. note ^{from} (see B) _{plus 1 Md. note you don't have}

If any of these 3 swap proposals is acceptable to you, please send the Md. note(s) of your choice, & I will send promptly the St. L. adv. note (& any Md. notes due you).

Dear Leonard:

The St. Louis advertisement for Martin's Clothing Warehouse is here and I prefer not to exchange bank notes for advertising items. I do have a Voradyne Universal Pain & Ache Cure \$3 advertising note which is blank in some areas for imprinting and contains red numbering, red seal, green overprint and black portrait and text. It has a green back. It is dated "Act of Mar. 10, 1877". It will be described in my article in the Numismatist for August. Can you use it for your medical items collection?

I am revising Early Paper Money of America and will bring it up to 1800. I need your help on the two or three Maryland banks during that period issuing notes. Bank of Maryland, Bank of Baltimore and Bank of the U. S. (Baltimore branch). What pieces do you have dated before 1800, whether genuine or counterfeit, and may I have a good xerox of them? Do you know the date of the first issue of each bank, the denominations or any other facts relating to their issues? Are there any references to that data?

I am looking forward to hearing from you. Please give my best to your gang.

Herewith, via special courier, is the \$100 Bank of Md 1--- note you requested on loan. Glad I was able to help out with your project. (If photo will be captioned, O.K. to attribute source)* If you wish, you may return it via same courier, who's coming East again in 3 wks.

Re the marathon trade on the St. Louis - Rawdon Wright Hatch adv. note, I understand you are seeking medical adv. notes for exchange. Although a Md. note is my preference, this will be alright. However, unless proposed note is of similar vintage & engraving, will expect at least 2 for mine. (As previously mentioned, would accept either your N.Y. dental note, or 1 of your Pfeiffer notes in even exchange.)

* this is permission, not a request.

If you have nothing concrete to offer by time Jeff leaves for Xmas holiday, please return the St. Louis note to him, along with the Md. \$100. note. Have to delimit the time somewhere, and I do have an attractive cash offer on the RWH - St Louis note.

The long delayed trade got you a very nice item. I won't tell you what I paid for it as it is too embarrassing, but someone really wanted it. I hope it pleases you as it is most unusual. Maybe this was a winning ticket. Maybe it shows that going to a doctor in 1815 was taking a chance.

only the millennial number, thus 1____,
clearly issued to accomodate the turn of the
century from 1799-1800. Enclosing a
photocopy of this. (Also have 25 of the
same bank, but it has early 1800 date filled in)

Also found a book that may be of
some interest - photocopy of title page enclosed.
Available for trade.

Jeffrey coming home on Wed 11/27.
If convenient you may give him to deliver Md.
note(s) for the St Louis adv, or the latter.

Sincerely C. No
